Volume 23, No. 1–4, 2014

Vol. 23, No. 1, 2014

Review

- The effects of inclusion level and source of sodium in diets for growing turkeys. A review
Zduńczyk Z. and J. Jankowski (Olsztyn, Poland) 3

Ruminants

- The effect of genetically modified maize (MON 810) and soybean meal (Roundup Ready) on rearing performance and transfer of transgenic DNA to calf tissues
Furgal-Dierżuk I., J. Strzetelski (Balice, Poland), K. Kwiatek (Puławy, Poland), M. Twardowska (Szczecin, Poland), M. Mazur, Z. Sieradzki, W. Kozaczyński and M. Reichert (Puławy, Poland) 13

- The relationship between fertility and intermediate optimum type traits in Polish Holstein-Friesian cows
Jagusiak W., E. Ptak (Kraków, Poland), A. Żarnecki (Balice, Poland) and A. Satola (Kraków, Poland) 23

- Modeling lactation curves of Polish Holstein-Friesian cows. Part II: Prediction of 305-d lactation milk, fat and protein yields
Otinowska-Mindur A., E. Ptak, W. Jagusiak and A. Satola (Kraków, Poland) 29

- Genetic evaluation of the growth of beef bulls at a performance test station
Vostrý L. (Prague, Czech Republic), Z. Veselá and E. Krupa (Prague - Uhřetěves, Czech Republic) 37

- Effect of beef from grass or maize silage- and concentrate-fed cattle on lipid metabolism and antioxidative status of rats
Łozicki A. and Dymnicka M. (Warsaw, Poland) 45

Monogastrics

- Two different forms and levels of CuSO₄ in piglet feeding: liver, plasma and faeces copper status
Pastorelli G., R. Rossi (Milan, Italy), E. Zanardi, S. Ghidini (Parma, Italy) and C. Corino (Milan, Italy) 52

- A four-generation feeding study with genetically modified (Bt) maize in laying hens
Halle I. and G. Flachowsky (Braunschweig, Germany) 58

- Feeding broiler chickens with practical diets containing lupin seeds (*L. angustifolius* or *L. luteus*): effects of incorporation level and mannanase supplementation on growth performance, digesta viscosity, microbial fermentation and gut morphology
Smulikowska S., P. Konieczka, J. Czerwiński, A. Mieczkowska and J. Jankowski (Jabłonna, Poland) 64

- The effects of benzoic acid and essential oil compounds in combination with protease on the performance of chickens
Giannenas I.A. (Thessaloniki, Greece), C.P. Papaneophytou, E. Tsalie (Karditsa, Greece), E. Triantafyllou (Thessaly, Greece), D. Tontis and G.A. Kontopidis (Karditsa, Greece) 73

- Growth characteristics of commercial broiler and native chickens as predicted by different growth functions
Moharrery A. and M. Mirzaei (Sharekord, Iran) 82

- The effects of organic selenium on performance and oxidative level in rainbow trout (*Oncorhynchus mykiss*, Walbaum, 1792) fed a high-fat diet
Keramat Amirkolaie A. (Sari, Iran), J. Karimzadeh and A. Abedian Kenari (Noor, Iran) 90

- The effects of caloric restriction and age on thyroid hormone signalling in the heart of rats
Lachowicz K., E. Fürstenberg, E. Pałkowska, M. Stachoń, D. Gajewska, J. Myszkowska-Ryciak, L. Kozłowska, A. Ciecierska and D. Rosołowska-Huszcz (Warsaw, Poland) 97

- Editorial news and events 105

Vol. 23, No. 2, 2014

Review

- Aspects of appropriate feeding of cows for production of milk enriched in the fatty acids, EPA and DHA. A review
Zymon M., J. Strzetelski (Balice, Poland) and G. Skrzyński (Kraków, Poland) 109

Ruminants

Digestibility, ingestive behaviour and performance of non-descript breed hair lambs of different sexual classes subjected to feed restriction
de Souza Rodrigues R.T. (Petrolina, Brazil), M.L. Chizzotti (Lavras, Brazil), S. Rodrigues Martins, M.A. Ávila Queiroz (Petrolina, Brazil) and K. Costa Busato (Lavras, Brazil) .. 117

Utilization of microbial selenium collected from the rumen of sheep
Ohgushi-Imamura T. (Matsue City, Japan), E.A. Orden and T. Fujihara (Munoz, Philippines) 124

Seasonal changes of the chemical composition of cheese obtained from the milk of indigenous Polish breeds of sheep
Kawęcka A. and E. Sosin-Bzducha (Balice, Poland) 131

Localization of kisspeptin neurons in the hypothalamus of peripubertal female lambs; possible connection with gonadotrophin releasing hormone and neuropeptide Y neurons
Polkowska J. (Jabłonna, Poland), S. Picard (Nouzilly, France), M. Wańkowska, M. Cieślak (Jabłonna, Poland), A. Caraty and Y. Tillet (Nouzilly, France) 139

Monogastrics

Correlations between fattening and slaughter performance test results of gilts and their subsequent reproductive performance
Ptak J. (Warsaw, Poland), A. Mucha and M. Różycki (Balice, Poland) 149

Ferrous bisglycinate increased iron transportation through DMT1 and PepT1 in pig intestinal epithelial cells compared with ferrous sulphate
Liao Z.-Ch., W.-T. Guan, F. Chen, D.-X. Hou, Ch.-X. Wang, Y.-T. Lv, H.-Z. Qiao, J. Chen and J.-H. Han (Guangzhou, China) 153

The nutritional value of narrow-leafed lupin (*Lupinus angustifolius*) for broilers
Kaczmarek S.A., M. Kasprowicz-Potocka, M. Hejdysz, R. Mięka and A. Rutkowski (Poznań, Poland) 160

Interdependence of the peripheral metabolism of glucocorticoids and thyroid hormones under calorie deficit in rats at different ages
Stachoń M., J. Gromadzka-Ostrowska, K. Lachowicz, E. Fürstenberg, E. Pałkowska, D. Gajewska, J. Myszkowska-Rycki, L. Kozłowska and D. Rosołowska-Huszcz (Warsaw, Poland) 167

Other topics

The effect of bale density and addition of formic acid on the *in situ* dry matter and crude protein degradation of lucerne, red clover and red fescue silages
Purwin C., M. Fijałkowska (Olsztyn, Poland), B. Kowalik (Jabłonna, Poland), H. Skórko-Sajko, Z. Nogalski and B. Pysera (Olsztyn, Poland) 177

A rapid HPLC method for the determination of sulphonamides and trimethoprim in feed premixes
Goulas V. (Limassol, Cyprus), T. Anisimova Andreou, C. Angastinioti Moditi (Nicosia, Cyprus) and O. Tzamaloukas (Limassol, Cyprus) 185

Improved derivatization of malondialdehyde with 2-thiobarbituric acid for evaluation of oxidative stress in selected tissues of chickens
Konieczka P., A.J. Rozbicka-Wieczorek, E. Więsyk, S. Smulikowska and M. Czauderna (Jabłonna, Poland) 190

Editorial news and events 198

Vol. 23, No. 3, 2014**Review**

Proteomic studies in pregnant and lactating cows. A review
Kurpińska A., A. Jarosz and W.F. Skrzypczak (Szczecin, Poland) 203

Ruminants

Incorporation of endogenous urea nitrogen into amino acids of milk in goats fed diets with various protein levels
Michalski J.P., M. Czauderna, W. Litwin (Jabłonna, Poland), N. Puzio (Olsztyn, Poland) and J. Kowalczyk (Jabłonna, Poland) 212

The effect of repeated endotoxin injections on gonadotropin secretion in ewes
Herman A.P., K. Kopycińska, A. Krawczyńska, K. Romanowicz and D. Tomaszewska-Zaremba (Jabłonna, Poland) 217

Monogastrics

Administration of *Lactobacillus fermentum* I5007 to young piglets improved their health and growth
Cai C.J. (Beijing, China), P.P. Cai (Heilongjiang, China), C.L. Hou, X.F. Zeng and S.Y. Qiao (Beijing, China) 222

The influence of (1,3)-(1,6)- β -D-glucan on the production results of sows and their offspring
Szuba-Trznadel A., A. Rzaša (Wrocław, Poland), R. Lira (Krzywiń, Poland) and B. Fuchs (Wrocław, Poland) 228

Quality assessment of eggs from laying hens fed a mixture with lucerne protein concentrate
Grela E.R., K. Ognik, A. Czech and J. Matras (Lublin, Poland) 236

Raw vs extruded coloured-flower pea as an ingredient in broiler diets: effects on performance, ileal digestibility, gut morphology, and intestinal microbiota activity
Konieczka P., S. Smulikowska, J. Czerwiński and A. Mieczkowska (Jabłonna, Poland) 244

Gastrointestinal tract response and growth performance of growing turkeys as influenced by the whole wheat content of diets in two feeding programmes
Jankowski J., D. Mikulski, Z. Zduńczyk, J. Juśkiewicz and K. Lichtorowicz (Olsztyn, Poland) 253

- The effect of using soyabean or linseed oil with RRR-d- α -tocopherol or dl- α -tocopherol acetate on haematological parameters and rearing performance of young turkey hens
Czech A. and K. Ognik (Lublin, Poland) 262

Other topics

- Predicting feeding value of forage maize hybrids harvested at different maturities and sites
Krizsan S.J., Z. Mussadiq, M. Hetta, M. Ramin (Umeå, Sweden), L. Nyholm (Valio, Finland) and P. Huhtanen (Umeå, Sweden) 269

Vol. 23, No. 4, 2014

Ruminants

- The comparison of propylene glycol and glycerol as feed additives in early lactation of high producing dairy cows
Pechová A. (Brno, Czech Republic), P. Pečínka (Žďár nad Sázavou, Czech Republic), J. Kudrnáčová (Lomnice nad Popelkou, Czech Republic) and L. Pavlata (Brno, Czech Republic) 285

- The effect of different physical forms of rapeseed as a fat supplement on the activity of some enzymes in the duodenal chyme of dairy cows
Moharrery A. (Shahrekord, Iran), M. Brask and M.R. Weisbjerg (Tjele, Denmark) 293

- The effect of intracerebroventricular infusions of ghrelin on the secretory activity of the GnRH/LH system in peripubertal ewes
Wójcik-Gładysz A., M. Wańkowska, A. Gajewska, T. Misztal, M. Szlis and J. Polkowska (Jabłonna, Poland) 299

- The yield and cell viability of bovine in vivo recovered embryos in relation to season of flushing
Stádník L. (Suchdol, Czech Republic), A.V. Makarevich (Lužianky, Slovak Republic), M. Doležalová (Suchdol, Czech Republic), E. Kubovičová (Lužianky, Slovak Republic), J. Beran (Suchdol, Czech Republic), Z. Hegedüšová (Vikyrovce, Czech Republic), J. Čítek (Suchdol, Czech Republic), R. Holásek (Vikyrovce, Czech Republic) and R. Stupka (Suchdol, Czech Republic) 309

- Responses of Nili-Ravi buffalo to aflatoxin B1 with and without toxin adsorbents
Akhtar R., M. Sardar, N. Saima, G. Saleem, S. Imran and A. Aslam (Lahore, Pakistan) 317

Monogastrics

- The effect of plant polyphenols on the antioxidant defence system of weaned piglets subjected to an *Escherichia coli* challenge
Jiang X.R. (Milan, Italy), H.J. Zhang (Beijing, China), G. Mantovani (Milan, Italy), G.L. Alborali (Brescia, Italy), J.M. Caputo, G. Savoini, V. Dell'Orto and V. Bontempo (Milan, Italy) 324

- The effects of dietary medium-chain triacylglycerols on growth performance and intestinal microflora in young pigs
Lai W.K., H.C. Yen (Taichung, Taiwan), C.S. Lin (Miaoli, Taiwan) and S.H. Chiang (Taichung, Taiwan) 331

- The relationship between blood lipid indicators and carcass traits and with the concentration of omega-3 fatty acids in the longissimus dorsi muscle of growing pigs
Raj S., M. Sobol, G. Skiba, D. Weremko (Jabłonna, Poland) and E. Poławska (Jastrzębiec, Poland) 337

- The effect of supplementing diets with dried fennel and thyme on the zootechnical parameters and caecal microflora of growing rabbit
Benlemlih M., A. Aarab, M. Bakkali, A. Arakrak and A. Laglaoui (Tangier, Morocco) 346

Other topics

- Thermal sterilization affects the content of selected compounds in diets for laboratory animals
Tuśnio A., M. Taciak, M. Barszcz (Jabłonna, Poland), J. Paradziej-Łukowicz, I. Olędzka (Gdańsk, Poland), W. Wiczkowski (Olsztyn, Poland), M. Szumska (Zabrze Rokitnica, Poland), B. Pastuszewska and J. Skomial (Jabłonna, Poland) 351
