

# JOURNAL OF ANIMAL AND FEED SCIENCES

**Vol. 16, No. 1**

**CONTENTS**

**2007**

The effect of administration of soya-protein with Lys, Met, and His in two forms on casein yield and composition and AA profile in milk S. Hadrová, L. Křížová (Pohořelice, Czech Republic), M. Bjelka (Rapotin, Czech Republic), J. Třináctý (Pohořelice, Czech Republic) and M. Dračková (Brno, Czech Republic) .....	3
Influence of an iodine depletion period and teat dipping on the iodine concentration in serum and milk of cows G. Flachowsky (Braunschweig, Germany), F. Schöne, M. Leiterer, D. Bemann (Jena, Germany), M. Spolders and P. Lebzien (Braunschweig, Germany) .....	18
Effect of levels of feed intake on plasma concentration and urinary excretion of purine derivatives in crossbred bulls S.K. George, M.T. Dipu, U.R. Mehra, A.K. Verma and P. Singh (Izatnagar, India) .....	26
Effect of variation in the proportion of solid- and liquid-associated rumen bacteria in duodenal contents on the estimation of duodenal bacterial nitrogen flow B. Vlaeminck, V. Fievez, D. Demeyer (Melle, Belgium) and R.J. Dewhurst (Aberystwyth, United Kingdom) .....	37
Assessment of intestinal permeability in preruminant calves by lactulose/mannitol test P. Klein (Praha-Uhřetěves, Czech Republic), J. Moravcová (Praha, Czech Republic), T. Kleinová, Z. Volek and V. Skřivanová (Praha-Uhřetěves, Czech Republic) .....	43
The effect of feeding low-phytate hulless barley-soyabean meal diets differing in protein content to growing pigs on phosphorus and nitrogen excretion J.K. Htoo, W.C. Sauer (Edmonton, Canada), B.A. Araiza, M. Cervantes (Mexicali, México), S.F. Liao, and Y. Zhang (Edmonton, Canada) .....	53
Dietary conjugated linoleic acid and leucine improve pork intramuscular fat and meat quality I.T. Yu, Y.T. King, S.L. Chen, S.C. Wang, Y.H. Chang and H.T. Yen (Chunan, Taiwan) .....	65
Effect of lactic acid fermented soyabean meal on the growth performance, intestinal microflora and morphology of weaned piglets N.F. Wang, Q. Chen, G.W. Le, Y.H. Shi and J. Sun (Wuxi, P.R. China) .....	75

Developmental gene expression of antimicrobial peptide Protegrin-1 and effect of weaning on gene regulation of Protegrin-1 in piglets F.F. Han, Y.Z. Wang, J. Feng, J. Guo and Z.R. Xu (Hangzhou, P.R. China) . . . . .	86
Comparison of the effects of Chinese herbs, probiotics and prebiotics with those of antibiotics in diets on the performance of meat ducks J. Wang and H. Zhou (Beijing, P.R. China) . . . . .	96
A note on the effect of <i>Gliricidia sepium</i> leaf meal on the growth performance and carcass characteristics of broiler chickens J.K. Kagya-Agyemang, G. Takyi-Boampong, M. Adjei and F.R. Karikari-Bonsu (Winneba, Ghana)... . . . . .	104
Diet supplementation with cholesterol and vitamin E influences rat hormonal and immune status B. Sińska, B. Sotowska, D. Rosołowska-Huszcz, M. Markowska, M. Bożentowicz, K. Skwarło-Sońta and J. Gromadzka-Ostrowska (Warsaw, Poland). . . . .	109
The influence of dietary conjugated linoleic acid isomers and selenized yeast on the fatty acid profile of the spleen, pancreas and kidneys of rats K. Korniluk, M. Czauderna and J. Kowalczyk (Jabłonna, Poland) . . . . .	121
Economic weights for litter size and fur coat traits of arctic fox in Poland H. Wierzbicki (Wrocław, Poland), J. Peura (Jokioinen, Finland), A. Filistowicz (Wrocław, Poland) and P. Przysiecki (Leszno, Poland) . . . . .	140

**Vol. 16, No. 2****CONTENTS****2007**

The effect of pre- and post-pubertal feeding levels on the growth, reproduction, and future milk production of Simmental dairy heifers J. Strzetelski (Balice, Poland), J. Kowalczyk (Jabłonna, Poland) and K. Bilik (Balice, Poland) . . . . .	155
Terpene accumulation in muscle and fatty tissues of calves supplemented with essential oils E. Serrano, A. Cornu, N. Kondjoyan (Saint-Genès, France), G. Figueredo (Aubière, France), J. Agabriel and D. Micol (Saint-Genès, France). . . . .	168
Udder conformation and housing system as related to somatic cell count in cow's milk P. Wójcik (Balice, Poland). . . . .	180
The effect of dietary conjugated linoleic acid on the levels of lipids, cholesterol and iodothyronines in the blood of pigs A. Sechman (Kraków, Poland), M. Pieszka (Balice, Poland), J. Rząsa, W. Migdał, D. Wojtysiak, H. Pustkowiak (Kraków, Poland), B. Živković (Zemun, Serbia and Montenegro) and P. Paściak (Wojkowice Kościelne, Poland)..... . . . .	193

Effect of iron supplementation on intestinal function and oxidative stress in piglets with induced colitis Q. Chen, G.W. Le, Y.H. Shi (Wuxi, P.R. China), Sh.M. Zhang and X. Jin (Gongzhuling, P.R. China) . . . . .	205
Effect of dietary inclusion of high-oleic acid sunflower seed on the utilization of crude palm oil by broiler chickens C. Alzueta, L.T. Ortiz, M.L. Rodríguez, A. Rebolé and J. Treviño (Madrid, Spain) . . . . .	214
Effects of feed enzymes on nutritive value of hybrid triticale x <i>Agrotriticum</i> kernels for broiler chickens M. Fabijańska (Warsaw, Poland), D. Gruszecka (Lublin, Poland), I. Kosieradzka (Warsaw, Poland), A. Mieczkowska and S. Smulikowska (Jabłonna, Poland). . . . .	225
Effects of glycyl-glutamine on the growth performance and lipid deposition in Yue-Huang broilers G. Shu, P. Gao, X.T. Zhu, Q.Y. Jiang, P.W. Xu, G.X. Zhou, F.W. Sun and W.L. Fu (Guangzhou, P.R. China) . . . . .	232
The effects of lactic acid bacteria and mannan oligosaccharide, with or without fumaric acid, on chicken performance, slaughter yield and digestive tract microflora F. Brzóška (Balice, Poland), S. Buluchevskij (Moscow, Russia), K. Stecka (Warsaw, Poland) and B. Śliwiński (Balice, Poland) . . . . .	241
A note on effects of benzoic acid supplementation on the performance and microbiota populations of broiler chickens D. Józefiak, S. Kaczmarek, M. Bochenek and A. Rutkowski (Poznań, Poland) . . . . .	252
Influence of dietary CLA isomers and selenium compounds on the fatty acid and amino acid profiles in blood plasma of rats K.M. Niedźwiedzka, K. Korniluk, J. Kowalczyk and M. Czauderna (Jabłonna, Poland) . . . . .	257
The effect of genistein on some hormones and metabolic parameters in the immature, female rats L. Nogowski, E. Nowicka, T. Szkudelski and K. Szkudelska (Poznań, Poland) . . . . .	274
Expression of recombinant porcine lactoferrin N-lobe in <i>Pichia methanolica</i> and its antibacterial activity T. Shan, Y. Wang, G. Liu and H. Huang (Hangzhou, P.R. China) . . . . .	283
Artificial Neural Network for prediction of plasma hormones, liver enzymes and performance in broilers A. Moharrery and A. Kargar (Shahrekord, Iran) . . . . .	293
Editorial news and events . . . . .	305

**Vol. 16, No. 3****CONTENTS****2007**

Recent studies on molecular mechanisms involved in mammalian sperm capacitation: A review L. Kątska-Książkiewicz (Kolbuszowa, Poland) . . . . .	311
Impact of thermal-humidity index on milk yield under conditions of different dairy management J. Broucek (Nitra, Slovakia), S. Ryba (Bratislava, Slovakia) S. Mihina, M. Uhrincat and P. Kisac (Nitra, Slovakia) . . . . .	329
The effect of soya protein supplement enriched with three amino acids on duodenal flow of soluble nitrogen fractions and amino acids in dairy cows L. Křížová, M. Richter, J. Třináctý (Pohořelice, Czech Republic), J. Šterc (Brno, Czech Republic) and S. Hadrová (Pohořelice, Czech Republic) . . . . .	345
Genetic parameters for somatic cell score for Polish Black-and-White cattle estimated with a random regression model E. Ptak (Kraków, Poland), P. Brzozowski (Warsaw, Poland), W. Jagusiak (Kraków, Poland) and K. Zdziarski (Warsaw, Poland) . . . . .	357
The development potential of bovine embryo co-culture with Vero and Vero/BRL cells A.M. Duszewska, J. Wojdan, W. Gawron, E. Wenta-Muchalska, B. Waś, A. Wiśniewska and Z. Reklewski (Jastrzębiec, Poland) . . . . .	370
Effect of rice straw in the diet for growing goats on site and extent of digestion and N balance X.G. Zhao, H.L. Jiang, Z.H. Sun, S.X. Tang, C.S. Zhou, Z.H. Cong, G.O. Tayo and Z.L. Tan (Hunan, P.R. China) . . . . .	379
Effects of abomasal infusion of cottonseed oil and dietary enzyme supplementation on dairy goats G. Jalilvand (Zabol, Iran), A. Naserian (Mashhad, Iran), N.E. Odongo, E. Kebreab (Guelph, Canada), R. Valizadeh, F. Eftekhar Shahrodi (Mashhad, Iran) and J. France (Guelph, Canada) . . . . .	389
The effects of dietary herbs and coral mineral complex on growth performance, nutrient digestibility, blood characteristics and meat quality in finishing pigs Y. Wang, Y.J. Chen, J.H. Cho, J.S. Yoo, Q. Wang, Y. Huang, H.J. Kim and I.H. Kim (Cheonan, Korea) . . . . .	397
Effect of Iberian pig feeding system on tissue fatty-acid composition and backfat rheological properties A. Daza, D. Menoyo, A. Olivares, G. Cordero and C.J. López-Bote (Madrid, Spain) . . . . .	408
Assessment of statistical models describing individual and group response of pigs to threonine intake J. Heger (Nitra, Slovakia), L. Křížová, M. Šustala (Pohořelice, Czech Republic), S. Nitrayová, P. Patráš (Nitra, Slovakia) and D. Hampel (Brno, Czech Republic) . . . . .	420

Molecular characterization, sequence variation and association with fat deposition traits of ACOX1 gene in pigs B. Zuo, H. Yang, J. Wang, M.G. Lei and Y.Z. Xiong (Wuhan, P.R. China) . . . . .	433
Preliminary results on exogenous ghrelin administration <i>via</i> stomach tube influence on the crypt cell proliferation in the small intestine mucosa of neonatal piglets M. Słupecka and J. Woliński (Jabłonna, Poland) . . . . .	445
Effects of feeding a fermented product on egg production, faecal microflora and faecal pH in laying hens T.C. Loh, F.L. Law, H.L. Foo, Y.M. Goh and I. Zulkifli (Serdang, Malaysia) . . . . .	452
Dietary supplementation with plant extracts, xanthophylls and synthetic antioxidants: Effect on fatty acid profile and oxidative stability of frozen stored chicken breast meat J. Koreleski and S. Świątkiewicz (Balice, Poland) . . . . .	463
Immunoreactive properties of pea protein extract and its trypsin hydrolysates R.J. Frączek, E. Kostyra, H. Kostyra and S. Krawczuk (Olsztyn, Poland) . . . . .	472
Biodegradation of urea-NH <sub>3</sub> treated wheat straw using anaerobic rumen fungi T.L. Dayananda, R. Nagpal, A.K. Puniya, J.P. Sehgal and K. Singh (Karnal, India) . . . . .	484
Methods of DNA isolation from poultry meal M. Natonek-Wiśniewska and E. Słota (Balice, Poland) . . . . .	490
Editorial news and events . . . . .	497
Corrigendum . . . . .	500

**Vol. 16, No. 4**

**CONTENTS**

**2007**

Microlocalization and distribution of digestion-resistant aromatic lignin and cellulosic compounds in feeds at cellular and subcellular levels: A novel approach P. Yu (Saskatoon, Canada) . . . . .	505
Bayesian analysis of genetic backgrounds of twinning rate in Thoroughbred horses E. Skotarczak, K. Moliński, T. Szwaczkowski and A. Dobek (Poznań, Poland) . . . . .	526
Estimation of digesta kinetics of different particle size fractions using rumen evacuation technique in dairy cows fed red clover-grass silage A.R. Bayat, M. Rinne, H. Khalili (Jokioinen, Finland), R. Valizadeh (Mashhad, Iran) and P. Huhtanen (Jokioinen, Finland) . . . . .	538
Dietary value and sensory quality of calf meat depending on different n-3 PUFA sources in the diet M. Zymon and J. Strzetelski (Balice, Poland) . . . . .	555

Comparison of GTG-banded karyotypes and microsatellite sequences in some species of the <i>Bovidae</i> and <i>Cervidae</i> families A. Kozubska-Sobocińska, T. Ząbek, E. Słota (Balice, Poland) and U. Kaczor (Kraków, Poland) .....	565
Digestion and utilization of fructose polymers by the rumen bacterium <i>Treponema</i> sp. strain T A. Kasperowicz and T. Michałowski (Jabłonna, Poland) .....	577
Characterization of the amylolytic properties of the rumen ciliate protozoan <i>Eudiplodinium maggii</i> G. Belżeczki (Jabłonna, Poland), C.J. Newbold, N.R. McEwan (Aberystwyth, Wales), F.M. McIntosh (Bucksburn, Scotland) and T. Michałowski (Jabłonna, Poland) .....	590
Effects of chito-oligosaccharides supplementation on performance, nutrient digestibility, pork quality and immune response in growing-finishing pigs K.N. Han, Y.X. Yang, T.W. Hahn, I.K. Kwon, J.D. Lohakare, J.K. Lee and B.J. Chae (Chuncheon, Republic of Korea) .....	607
Effect of the feeding level during the fattening phase on the productive parameters, carcass characteristics and quality of fat in heavy pigs A. Dunker, A.I. Rey, C.J. López-Bote and A. Daza (Madrid, Spain) .....	621
Factors affecting the production of potential transgenic pigs by DNA microinjection; a six-year retrospective study J. Jura, Z. Smorağ (Balice, Poland), R. Słomski, D. Lipiński (Poznań, Poland) and B. Gajda (Balice, Poland) .....	636
Comparison of time-resolved fluoroimmunoassay for clenbuterol residues in pig liver with enzyme-linked immunosorbent assay L.Bi. Wang (TianJin, P.R. China), X.Q. Li, Ti M. Huo, Ke Li and Ch.-L. Xu (Wuxi, P.R. China) .....	646
The influence of inflammatory process on prostaglandin F <sub>2α</sub> contractile activity in porcine uterus J. Kucharski, J. Jaroszewski, B. Jana, J. Górską, A. Kozłowska and W. Markiewicz (Olsztyn, Poland) .....	654
Effect of dietary level of maize- and rye distiller dried grains with solubles on nutrient utilization and digesta viscosity in laying hens S. Świątkiewicz and J. Koreleski (Balice, Poland) .....	668
Comparison of the influence of different chemical forms of selenium and the profiles of CLA isomers in the diet on fatty acid and amino acid content in the liver and femoral muscles of rats M. Czauderna, J. Kowalczyk, K. Korniluk and K.M. Niedźwiedzka (Jabłonna, Poland) .....	678
Detection of cyclic nucleotide phosphodiesterase mRNA in mouse skeletal muscle tissue and primary cultured myocytes J.N. Gu, W. Chen, T.Q. Yu, P. Lu, X. Mu and J.Q. Xu (Beijing, P.R. China) .....	696
Author index .....	706
Contents of Journal of Animal and Feed Sciences, Volume 16 .....	715
