

JOURNAL OF ANIMAL AND FEED SCIENCES

VOL. 9, No. 1

CONTENTS

2000

A review of efficiency of nitrogen utilisation in lactating dairy cows and its relationship with environmental pollution A.R. Castillo, E. Kebreab, D.E. Beever and J. France (Reading, UK)	1
Lactation and body weight of dairy cows: interrelationships among heat stress, calving season and milk yield E. Maltz (Bet Dagan, Israel), O. Kroll (Cesarea Industrial Park, Israel), H. Barash, A. Shamy and N. Silanikove (Bet Dagan, Israel)	33
Partial lactations in genetic evaluation based on test day model T. Strabel and T. Szwaczkowski (Poznań, Poland)	47
The feeding behaviour of the water buffalo monitored by a semiautomatic food intake recording system J.P. Barrio (León, Spain), S.Y. Zhang, Z.K. Zhu, F.L. Wu, X.Z. Mao (Nanjing, China), F.F. Bermúdez (León, Spain) and J.M. Forbes (Leeds, UK)	55
SSCP polymorphism within a promoter of the bovine alpha S1 casein gene S. Kamiński and S. Józefowicz (Olsztyn, Poland)	73
Influence of continuous intravenous lysine and methionine infusion on N-balance in growing sheep fed diets that differ in ruminal degradable protein J. Matras (Lublin, Poland), R.L. Preston and S.J. Bartle (Lubbock, USA)	81
The use of guar meal in the diet of sheep M.M. Ahmed Muna (Khartoum, Sudan), F.M. El Hag (El Obeid, Sudan) and Manahil M. Awouda (Khartoum, Sudan)	91
Ileal digestibility of amino acids in maize gluten feed for pigs C. Jondreville, J. van den Broecke, F.Grosjean, S. Van Cauwenberghes and F. Gâtel (Paris, France)	99
The size of pig embryos is not influenced by their sex by day-10 after insemination D. Lechniak (Poznań, Poland), S.E. Long (Bristol, UK), A.K. Nissen (Frederiksberg, Denmark) and M. Bailey (Bristol, UK)	113
High-protein fraction of 00 type rapeseed meal in broiler nutrition B.Z. Kamińska, F. Brzóska and B. Skraba (Balice, Poland)	123
The response of rats to long-term feeding with diet containing oxidized fat. 1. Thermooxidative changes in fat, body weight gain, feed consumption and utilisation Z. Zduńczyk, J. Juśkiewicz, M. Długoszewska, S. Frejnagel and A. Koncicki (Olsztyn, Poland)	137

The response of rats to long-term feeding with diet containing oxidized fat. 2. Biochemical indicators in the serum, liver, and bone mineralization indicators J. Juśkiewicz, M. Długoszewska, Z. Zduńczyk, A. Krasnodębska-Depta, B. Krefft and J. Sadowska (Olsztyn, Poland)	147
Cellulase degradation of whole rice straw J. Vadiveloo (Shah Alam, Malaysia)	157
Editorial news and events	167

VOL. 9, No. 2**2000**

Estimation of microbial protein supply in ruminant animals based on renal and mammary purine metabolite excretion. A review K.J. Shingfield (Jokioinen, Finland)	169
The structure and activity of cyclic AMP- dependent protein kinase A A. Ostrowska (Dziekanów Leśny, Poland)	213
How the activity of cyclic AMP-dependent protein kinase A may be influenced by stress A. Ostrowska (Dziekanów Leśny, Poland)	247
Comparison of different test day models used for genetic evaluation of Polish Black-and-White cattle E. Ptak and A. Żarnecki (Kraków, Poland)	261
The effect of supplementing rations with selenium and vitamin E on biochemical parameters in blood and performance of cows in the early stage of lactation A. Falkowska, D. Minakowski and J. Tywończuk (Olsztyn, Poland)	271
Performance and meat quality of fattening bulls fed complete feed with rapeseed oil cake or linseed T. Stasiniewicz, J. Strzetelski (Balice, Poland), J. Kowalczyk (Jabłonna, Poland), S. Osieglowski (Pawłowice, Poland) and H. Pustkowiak (Kraków, Poland)	283
Rearing suckling Polish Lowland lambs on creep feed with different protein levels J.J. Pająk, T. Żebrowska, M. Słowak and Z. Długolecka (Jabłonna, Poland)	297
Growth and carcass traits of Boer x Alpine goats slaughtered at the ages of 31 and 50 weeks J. Luo, T. Sahlu, and A.L. Goetsch (Langston, USA)	309
A note on the effect of restricted consumption of water and/or dry matter in milk replacer on growth by male and female Alpine kids A.L. Goetsch, R. Puchala, M. Lachica, T. Sahlu and L.J. Dawson (Langston, USA)	325
Effects of immunostimulators on growth performance and immune response in pigs weaned at 21 days of age J.D. Kim (Seoul, Korea), Y. Hyun (Illinois, USA), K.S. Sohn, H.J. Woo, T.J. Kim and In K. Han (Seoul, Korea)	333
Influence of the probiotic bacterial strain, <i>Bacillus cereus</i> var. <i>toyoi</i> , on the development of selected microbial groups adhering to intestinal mucosal tissues of piglets A. Adamus, W. Vahjen and O. Simon (Berlin, Germany)	347

The response of turkeys to diets containing fat differing in degree of oxidation
 J. Jankowski, Z. Zduńczyk, J. Juśkiewicz, A. Koncicki, A. Falkowska and A. Faruga (Olsztyn, Poland) 363

Metabolisable energy value of rapeseed meal and its fractions for chickens as affected by oil and fibre content
 M. Chibowska, S. Smulikowska and B. Pastuszewska (Jabłonna, Poland) 371

Performance and adipose cellularity of female progeny of White Plymouth Rock dams and commercial broiler breeder sires
 S.N. Nahashon, C.O. Briles, S.L. Louis and J.R. Bartlett (Tuskegee, USA) 379

A note on the effect of feeding local forages to commercial layers on egg production and yolk colour
 A. Tégua (Dschang, Cameroon) 391

Antioxidative properties of chloroplast concentrates obtained by various methods from lucerne juice
 B. Baraniak and M. Karaś (Lublin, Poland) 397

Editorial news and events 407

VOL. 9, No. 3

The effect of gestation and lactation of dairy cows on lipid and lipoprotein patterns and composition in serum during winter and summer feeding
 B. Pysera and A. Opałka (Olsztyn, Poland) 411

The effect of rolled rape seeds on milk composition and lactational responses
 W. Nowak and A. Potkański (Poznań, Poland) 425

Associations between polymorphism within regulatory and coding fragments of bovine Kappa-casein gene and milk performance traits
 S. Kamiński (Olsztyn, Poland) 435

Fattening of Polish Lowland lambs on diets with different protein levels
 J.J. Pająk, T. Żebrowska, M. Słowak and Z. Długolecka (Jabłonna, Poland) 447

Genetic parameters for faecal egg count following natural nematode infections and correlation with productive traits in Polish Heath sheep
 K.M. Charon (Brwinów, Poland), B. Moskwa (Warszawa, Poland), Z. Nowak (Brwinów, Poland) and M. Szydłowski (Poznań, Poland) 461

Ovarian and reproductive tract responses to vitamins and minerals supplementation in prepubertal gilts
 A.J. Zięcik (Olsztyn, Poland), W. Kapelański (Bydgoszcz, Poland), A. Stępień (Olsztyn, Poland), J. Riopérez and C. De Alba (Madrid, Spain) 471

Effect of vitamins on ovarian and reproductive tract development and reproductive performances in prepubertal gilts
 C. De Alba (Madrid, Spain), A.J., Zięcik A. (Olsztyn, Poland), A. Fuentes, C. Garcia, J. Riopérez, B. Jana, J. Flores (Madrid, Spain) and S. Rillo (Olsztyn, Poland) 479

	A note on absorption of crystalline threonine in pigs L. Buraczewska and E. Świąch (Jabłonna, Poland)	489
	Effect of enzyme supplementation on the performance of broilers fed maize, wheat, barley or micronized dehulled barley diets Y.-L. Yin, S.K. Baidoo, J.L.L. Boychuk and W. Guenter (Manitoba, Canada)	493
	The response of growing quails to diets containing oligosaccharides isolated from seeds of narrow-leaved lupin (<i>Lupinus angustifolius</i>) D. Szerbińska, Z. Tarasewicz, A. Dańczak and M. Ligocki (Szczecin, Poland)	505
	The filter bag versus the conventional filtration technique for the determination of crude fibre and Van Soest cell wall constituents B.G. D'heer, J.L. De Boever, J.M. Vanacker and Ch. V. Boucqué (Ghent, Belgium)	513
	A note on the effect of diet and type of fat on cellulose degradability in the rumen of sheep M. Szumacher-Strabel, A. Cieślak and A. Potkański (Poznań, Poland)	527
	A note on the nutritional adequacy of stock diets for laboratory rats and mice B. Pastuszewska, A. Ochtabińska (Jabłonna, Poland) and A. Morawski (Kecynia, Poland)	533

Vol. 9, No. 4**2000**

	New technology: Issues relating to the use of genetically modified crops R.H. Phipps and D.E. Beever (Reading, UK)	543
	Effects of early lactation concentrate level and glucogenic feed on feed intake, milk production and energy metabolism in dairy cows and heifers T. Kokkonen, A. Tesfa. M. Tuori, K. Hissa, E. Jukola and L. Syrjälä-Qvist (Helsinki, Finland)	563
	Effects of canola and soya lecithins compared with canola oil and seed on performance, carcass quality and body fat composition of growing bulls H.-R. Wettstein, M. Kreuzer, F. Sutter and M.R.L. Scheeder (Zurich, Switzerland)	585
	Productivity and body composition of Black-headed Mutton sheep x Polish Merino cross-bred rams fed complete pelleted mixtures with different energy concentration M. Urbaniak, A. Potkański, A. Frankiewicz, I. Przybecka and J. Matyniak (Poznań, Poland)	605
	Nutritive value of breadfruit (<i>Artocarpus altilis</i> , Park) and cassava (<i>Manihot dulcis</i>) in concentrate supplements of goats fed a basal diet of batiki grass E.M. Aregheore (Apia, Samoa)	615
	A note on the effect of feeding calves on fish-protein-based milk replacers Lj. Sretcnovic (Zemun -Beograd, Yugoslavia)	625
	Effects of chromium picolinate, L-carnitine and thyroxine on the performance, nutrient digestibility and nitrogen balance in pigs weaned at 21 days of age W.T. Cho, In K. Han (Seoul, Korea), B.J. Chae (Kangwon, Korea), Y.K. Han ¹ , J.K. Ha (Seoul, Korea) and J. Odle (North Carolina, USA)	633

Study on the nutritive value of dextrin as a carbohydrate source for pigs weaned at 21 days of age C.H. Lee, Y.K. Han, K.U. Lee, J.D. Kim, W.T. Cho, T.G. Ko and In K. Han (Seoul, Korea)	647
Effects of particle size and extrusion of maize and sorghum on ileal digestibility and growth performance in pigs weaned at 14 and 21 days of age B.J. Chac, Y.G. Kim (Kangwon, Korea), In K. Han, J.H. Kim, W.T. Cho (Seoul, Korea), J.D. Hancock and I.H. Kim (Manhattan, USA)	665
Effects of dietary enzyme on broiler chickens fed diets containing wheat bran S.A. Osei and S. Oduro (Kumasi, Ghana)	681
Concentration of plasma cholesterol and total lipids in hens of various laying lines during the laying period L. Máchal (Brno, Czech Republic)	687
Seasonal variations in the morphometric analysis of the ovary and uterus and in progesterone and 17 β -oestradiol production in the brown hare (<i>Lepus europaeus</i>) P. Massányi, J. Slamečka, N. Lukáč and R. Jurčík (Nitra, Slovak Republic)	697
Seasonal variations in the morphometric analysis of the testis, testosterone production, and occurrence of pathological spermatozoa in the brown hare (<i>Lepus europaeus</i>) P. Massányi, J. Slamečka, N. Lukáč and R. Jurčík (Nitra, Slovak Republic)	709
Sequence polymorphism of exon 17 of the ryanodine receptor gene (<i>ryr1</i>) in the Canidae P. Gronek, K. Nuc, D. Napierała, A. Pławski, M. Zajac, T. Banasiewicz and R. Słomski (Poznań, Poland)	721
Fermentation of glucose, xylose, cellulose and waste paper by the rumen anaerobic fungus <i>Orpinomyces joyonii</i> A ₄ L. Kovář (Uhřetěves, Czech Republic), V. Benda (Prague, Czech Republic), B. Hodrová and M. Marounek (Uhřetěves, Czech Republic)	727
Editorial news and events	737
Author index	739
Contents of Journal of Animal and Feed Sciences, Volume 9	747
